ACCESS CONTROL

With over 20 years of in-house research and development, **Digitot** products are high-quality turnkey solutions specifically tailored for the Hospitality & Surveillance industry.

Digitot has a global reach with many distribution partners internationally. We have successfully expanded our business year on year, and we are proud to trade with all 6 continents, providing a complete control solution to the hospitality industry.

Our customers include small, medium and large organisations, specialised groups and individuals

What we do

CCTV SYSTEMS

We offer a wide comprehensive range of bullet, dome and Pan-Tilt-Zoom security cameras. We have both IP and analogue cameras in a variety of megapixels. We also have specialist cameras for clients with more demanding requirements

ACCESS CONTROL

They can control the entrance and exit of buildings or restricted areas, secure vulnerable items held in display cabinets etc. These systems can be linked to a server so reports and data can be easily accessible when required for review

TIME & ATTENDANCE

We are certified installers and integrators of the world's leading time and attendance readers and software systems which include Viridi, ZK Teco, Impro and Hikvision. Regardless of your requirements and budget we have a system to custom fit your business needs

OUR SCOPE OF PRODUCTS INCLUDE:

Surveillance, Point of sale software, Digitot Inventory Control Software, Spirit dispensers, draught beer/portion control equipment and stock taking solutions. Our customers include small, medium and large organisations, specialized groups and individuals.
